

VISUAL MEDIA DESIGN 105

The background of the entire image is a white wooden plank surface. It is decorated with several large, vibrant pink roses and numerous loose pink rose petals scattered across the top and bottom edges. The word "INTRODUCTION" is centered in the upper half of the image.

INTRODUCTION

Hello my name is Cinthya Nunez but cinthya it's spelled with an i. I am taking VMD 105 because i like taking pictures of the colors, textures and objects around me. I also wanted to develop my skills with potoshop. My goals are to be able to direct, produce, write and act my own videos. I also decided to take this class because i like learning new subjects and i like to maintain my mind occupied. My favorite colors are patels, warm and bright colors they reflect my personality.

Let It Rain

The background of the entire image is a white wooden plank surface. It is decorated with several large, vibrant pink roses and numerous individual pink rose petals scattered around them. The roses are positioned in the corners and along the edges of the frame, creating a decorative border. The word "RASTER" is centered in the upper half of the image.

RASTER

My raster project was my favorite because i got to learn how to use photoshop. My inspiration for this project was the path that i decide to take on something new in my life. I am a candy lover and i decided to have falling gummy bears from the ky. Pink and purple are my two favorite colors. For my raster project i decide to add pink and purple clouds. The difficult challenges with this project was blending out the colors but after trying out different techniques i manage to get it perfect.

Life Is Better By The Beach

The background of the entire image is a white wooden plank surface. It is decorated with several large, vibrant pink roses and numerous loose pink rose petals scattered across the top and bottom edges. The word "VECTOR" is centered in the upper half of the image.

VECTOR

My vector project was a creature that is part turtle and part unicorn. My inspiration for this project was the beach and animals. I enjoy going to the beach since I can remember. I decided to have the beach as my background for this project. I also love having animals around me and for this project we had to make a creature. I decided to combine a turtle and a unicorn together and i created my creature. I gave the creature pastel colors and circles, rectangles and triangles shapes. The challenges for me with project was grouping elements together.

Hello!

The background of the entire image is a white wooden plank surface. It is decorated with several large, vibrant pink roses and numerous individual pink rose petals scattered around them. The roses are positioned in the corners and along the edges of the frame, creating a decorative border. The word "ANIMATION" is centered in the upper half of the image, rendered in a large, bold, white serif font with a thick pink outline.

ANIMATION

The motion project was very difficult for me because i was not understanding the tweens and the tools. My inspiration for this project was crazy, silly, clumsy cat Valentino. My motion project was a short story of my cat waking through a forest and finding an egg in the middle of the forest. Valentino jumps on top of the egg and a friendly bird hatches out of the egg. This project was very fun to create it was a challenge but I' ve learn how to make a character vector and give the motion.
